EDUCATION

Cornell University

Bachelor of Arts in Information Science
Minor in Computer Science

Overall GPA: 3.60 / 4.30

Graduated 2017

Ithaca, NY

EXPERIENCE

Meta

Sept 2017 – present

Senior Software Engineer

New York, NY

- Full-stack engineer, working across web, mobile, and server side to ship projects to millions of users.
- Worked with several teams across Facebook and Instagram, including Location Platform, Commerce, and Privacy. Worked with designers, data scientists, and product managers.
- Mentored more junior engineers across my team and others, supporting them through career growth.
- Lead the Women in Tech chapter in NY. Organized community events, career growth talks, and mentorship programs.

Intern Director

Summer 2022

- Coached 11 intern managers. Approved project plans and evaluated intern performance

Intern Manager

Summer/Fall 2018-2024

- Managed five interns to return offers. Determined project plans and worked with interns to ensure they were set up for success.

Georgia State University, Meta

Jan 2023 – June 2023

Engineer in Residence

Atlanta, GA

- Taught capstone computer science course of 19 students and intro to CS labs for 50.
- Ran monthly events with clubs and industry partners to aid in students getting internships. Held career and interview focused office hours for all students.

Software Engineering Internships

Summers 2013-2016

- Interned at Meta. Full stack developer on the Events team. Landed two full projects and a hackathon.
- Interned at Originate. Full stack developer across three projects. Worked with external partners on project deliverables.
- Interned at 2U. Developed a web-based dashboard application for internal use to track productivity.

Cornell University

Fall 2015, Spring 2017

Teaching Assistant

Ithaca, NY

- Teaching assistant for the Introduction to Web Development and Intermediate Design and Programming for the Web courses. Taught lab sections, created and graded assignments, and held office hours.

VOLUNTEERING
